

Network Coordinators' Pay

As approved by the 2014 Edinburgh Autumn Conference (2/11/14).

Preamble

A large amount of work and effort has gone into the organisational work of SfC has been undertaken by several individuals working for free, in the long term it would not be right or fair on relying on these individuals or others being able to this. For this reason the waged roles of Network Coordinators shall be created.

Policy

1. The role of the Network Coordinators shall include facilitating:
 - 1.1. The building of links between student co-ops;
 - 1.2. The fulfilment of the aims of SfC;
 - 1.3. The organisation of conferences;
 - 1.4. The application of grants to fund SfC (including for paying their own wages) and grants to fund existing/potential co-ops.
2. The Network Coordinators are answerable to all members of SfC and as such must submit bi-monthly reports of their actions for review by the network. In addition to this they will give reports in person to the GM.
